

CHRISTIE LITES

COVID-19 UPDATE

During the developing COVID-19 situation, Christie Lites is ready and available to support your 24/7 emergency response needs. We have equipment, technical staff, and production partners to support you at 13 fully stocked distribution locations throughout North America and UK – including:

- **Rapid deployment high efficiency indoor/outdoor LED lighting including A/C and battery powered units.**
- **Power distribution and cabling systems - certified to local electrical codes.**
- **Large truss and rigging inventory for the creation of temporary structures and dividers, signage, lighting support, etc.**
- **Regionally-based production partners for design and execution of custom emergency installations.**
- **Local site and technical labor pools available for immediate deployment.**

Christie Lites has 35 years of expertise in an industry where unconventional solutions are the standard. Our diverse international staff are poised to work with your teams to meet all challenges during this very unconventional time.
